# Scaffold Migration

LMS CONTENT **MIGRATION**

Migrate course content **within days and weeks**, not months and years

Scaffold Migration is a fully integrated migration service that allows you to move online content from one LMS to another in real time, capturing details such as course structure, quizzes, tests, and even question pools.

This service is powered through our proprietary technology and replaces what used to be a manual, resource-intensive process with sophisticated but simple automation.

No other solution but Scaffold Migration gets you off your old LMS to a new one more effectively, efficiently or accurately.

A list of robust courses was provided to K16 Solutions, and not only were they migrated quickly, the content was placed in Canvas in a way that made the courses ready for immediate faculty us.

Chris McLaughlin, Assistant Director,  
Wake Forest University

**QUICK:** Through automated content migration, Scaffold Migration can migrate up to 6,000 courses per week, per institution.

**ACCURATE:** Faculty gain instant access to courses that are ready to teach.

**AFFORDABLE:** Using an automated process eliminates the need for human resources, driving down costs significantly.

# Scaffold Migration

Scaffold Migration is the first cloud-based, **fully integrated** content migration service.

## **ACCELERATE SPEED-OF-DELIVERY**

Saves time, giving staff & faculty the ability to focus energy on students and academics. Reduced timelines means reduced costs.

## **AUTOMATE THE COURSE MIGRATION PROCESS**

Transfers course content regardless of coding type—script tags, iframe, LTI's, settings, quizzes, quiz banks, etc.

## **DELIVER READY-TO-TEACH COURSES**

Provides faculty the assurance they need to begin teaching in the new LMS quickly. Eliminates the need for faculty to rebuild courses manually.

We are now able to proceed more confidently with a bulk migration of sites to the new system knowing that we are positioning our faculty and teaching center staff in the bestplace possible to focus on quality and good instructional design.

- **David Williams**, Assistant Director,  
*University of South Alabama*

Founded by educators, K16 Solutions is eliminating the LMS challenges institutions across the globe have traditionally faced. Using state-of-the-art technology K16 Solutions can quickly and efficiently migrate courses from one LMS platform to another, help faculty more easily build best-in-class courses, archive student data, and provide other custom LMS services.
